FERRAGENS / HARDWARE LIST / LISTA DE HERRAJES

ATENÇÃO!!!

Em caso de uso de parafusadeira comece com um torque bem leve e vá aumentando até achar o ideal. Aperte somente até travar. Torque excessivo pode espanar o parafuso e danificar a peça comprometendo sua correta fixação.

ATTENTION!!!

If using a screwdriver, start with a very light torque and increase until you find the ideal. Press only until it locks. Excessive torque can strip the bolt and damage the part, compromising its correct fixation.

ATENCIÓN!!!

En caso de utilizar un destornillador, comience con un torque muy ligero y vaya aumentando hasta encontrar el ideal. Presione solo hasta que se detener. Torsión excesivo puede desempolvar el tornillo y dañar la pieza, comprometiendo su correcta fijación.
